

KNIGHT KNOX

INVESTMENT OPPORTUNITY

Station Court

BURTON-ON-TRENT, STAFFORDSHIRE

Get paid monthly income from a property you own, without managing the day-to-day responsibilities

Why this opportunity stands out

Firstly, thank you for taking the time to look through this opportunity and for your interest in Station Court.

Having worked with investors across the globe at Knight Knox for over three years, one of the most common questions I'm asked is: "Is Specialist Supported Housing genuinely in demand, and is it a sustainable long-term investment?"

The reality is that the UK is currently facing a significant shortage of suitable supported housing, with demand continuing to outpace supply. Government data estimates a shortfall of around 325,000 supported homes nationwide, while record numbers of households remain in temporary accommodation across England.

That long-term housing need is one of the key reasons opportunities like this continue to attract investor attention. Combined with a fully managed structure and a 25-year rental agreement, Station Court is designed to provide investors with a more hands-off approach to property ownership and predictable long-term income.

The Knight Knox logo is visible in the top left corner.

Earn 25-years of rental income from this property

Station Court, our latest Specialist Supported Housing investment opportunity, consists of fully furnished one and two-bedroom apartments, ready for immediate occupation, with tenants already lined up to move in on a long-term basis.

The properties are operated under a fully repairing and insuring structure, meaning all maintenance, upkeep, and building-related costs are covered - so there are no ongoing running costs for you to manage or budget for.

Tenant management is also handled entirely on your behalf, from placement through to day-to-day communication, removing the usual pressures that come with being a landlord.

In simple terms, everything is set up from day one - the property, the tenants, and the management - allowing you to step into a fully operational, income-producing asset without the usual setup or ongoing involvement.

Who this opportunity is best suited to

This investment is best suited to individuals who:

Are looking for a time-efficient way to invest

It is particularly relevant for:

- ✓ Busy professionals
- ✓ Overseas investors

Purchase from £146,957

From 11.5% NET returns

One & two-bedroom apartments

Fully-furnished with fixtures & appliances

Located in Burton-on-Trent, Staffordshire

No set-up or refurbishment required

You retain full ownership & can keep, sell after 3 years, or pass on the asset

No ground rent or service charges. The lease is fully repairing and insuring, so building costs are not your responsibility

Residents, maintenance, & day-to-day running are handled by the housing provider, Nurture Housing Association

Property ownership structured for long-term rental income

Annual rent increases linked to inflation, plus an extra 1% after the first year of ownership (runs April to April)

Fully furnished and set up with the lease already in place - no sourcing, refurbishing, or setup required

25-year rental contract for peace of mind

Nurture Housing Association take full responsibility for managing the property on your behalf - covering everything from tenant placement and day-to-day management to ongoing maintenance and repairs, with no ongoing costs or involvement required from you.

For investors, this structure is what fundamentally sets it apart from traditional buy-to-let.

Instead of relying on individual tenants, dealing with void periods, or managing rising maintenance costs, the property is operated under a long-term arrangement designed to provide consistent, predictable rental income.

It also means the asset is professionally managed throughout the full term of the agreement, ensuring standards are maintained and the property continues to perform as intended - without becoming a drain on your time.

Ultimately, it shifts the focus from owning and managing a property to owning an income-producing asset, which is exactly what many investors are looking for today.
